CROSS LAKE PANDEMIC PLANNING COMMITTEE

COMMUNITY NOTICE

September 1, 2021

As of August 16, 2021, all young people in Manitoba born on or before December 31, 2009 are eligible to be immunized against Covid – 19 with the Pfizer Vaccine. 11 year olds can now be vaccinated. The vaccine is safe, effective, and will help prevent young people from getting the virus, passing it to others, or experiencing serious outcomes. In the Third Wave of Covid – 19, the virus is more contagious and affecting younger people more seriously, so it is important to immunize as many people as possible as quickly as possible to slow the spread.

So parents and foster parents, we are strongly encouraging you to bring your 11-year-old child and any other children that are 11 years old and older that are in your home to get vaccinated.

The more youth we vaccinate, the safer they will be when returning back to School.

A Clinic has been scheduled for Friday, September 3, 2021

Time: 10 a.m. to 6 p.m.

Place: Cross Lake Community Hall

Transportation will be provided

This Clinic will be open to any person (s) wanting to get vaccinated.

Ekosani, stay safe, wear a mask and social distance.
