CROSS LAKE PANDEMIC PLANNING COMMITTEE – COMMUNITY NOTICE

WEDNESDAY, MAY 12, 2021

TANSI, NITOTEMAK, NITEENIMAK, NIWAKOMAKANUK, KAKINOW ININIWAK

The UK Variant is now in the Community We now have 38 active cases of COVID-19 cases and 10 Variant of Concern (VOC) cases (9 UK + 1 undetermined) in the community of Cross Lake. This UK Variant is up to 70% more transmissible. It may result in severe illness and a higher risk of death. It spreads more easily and hits the younger age group harder than the original COVID-19 Virus. It is transmittable within 5 minutes of contact.

Most of the UK Variant cases are out in AIA but were in the community prior to being diagnosed which could potentially spread.
