To All Cross Lake Citizens

Stay Home & Stay Safe

The Mayor & Council in partnership with Chief and Council along with the Pandemic Team have worked tirelessly over the past (8) months monitoring and keeping our people safe from the Viral Pandemic that is raging and spreading around the World.

It is with sadness that we now have to come to the realization that we are now faced with our First COVID cases surfacing in Cross Lake.

This Virus is very contagious and will spread very fast if people do not listen and adhere to our plea, to keep your 2-meter distance from others, wear your masks at all times and wash your hands frequently, and Stay Home. All of these instructions have been told to Everyone countless times over the last (8) months and now more than ever, we all must pay attention because if we do not, the Virus will spread fast and cause people to become very sick and cause death to people who are vulnerable.

Both Leaderships and the Pandemic Team are presently in communications with outside Rapid Response Resources that will be required for tracing and testing. We are asking that everyone assist us at this time by Staying Home and not moving around the community until contact tracing and testing is completed.

This is only an inconvenience and we are asking this of you for the sake of keeping everyone safe from this deadly Pandemic.

We have also requested that all non Essential Services be closed until further notice. We will keep everyone updated as things progress. (Radio & Facebook)

Also be advised that there is currently a 24-hour Curfew in Effect. Again, until we manage to get things under control, Stay Home & Stay Safe!

Chief & Council, Mayor & Council & Cross Lake Pandemic Planning Committee
